#### WAITED LONG FOR PROBATE

After Twenty years Son Produces Fa-ther's Will-Testator's Instructions Had Been Obeyed.

Undiscovered for nearly twenty years after his death, the will of Johann Michael Muller has been offered for probate at Baltimore by his son, John G. A. Muller. The testator died March 13, 1896, having made his will on May 31, 1889,

The paper, yellow and musty with age, left all Mr. Muller's property to wife Elizabeth Barbara Muller. She died April 30, 1915, and her son was appointed administrator of her estate. He had known of the existence of the will for several months prior to his mother's death, but since all the property had been enjoyed by Mrs. Muller as her husband had desired, it was not thought necessary to probate the will at that time.

The son says the property will now be divided between his two brothers and himself, since his mother died intestate. The exact value of the estate has not been determined, but it is made up almost entirely of parcels of real estate.
